## BAG BREAK STATIONS

- **SELF CONTAINED MANUAL BAG BREAKING STATION**
- **CLEAN, DUST CONTROLLED PROCESS ENVIRONMENT**

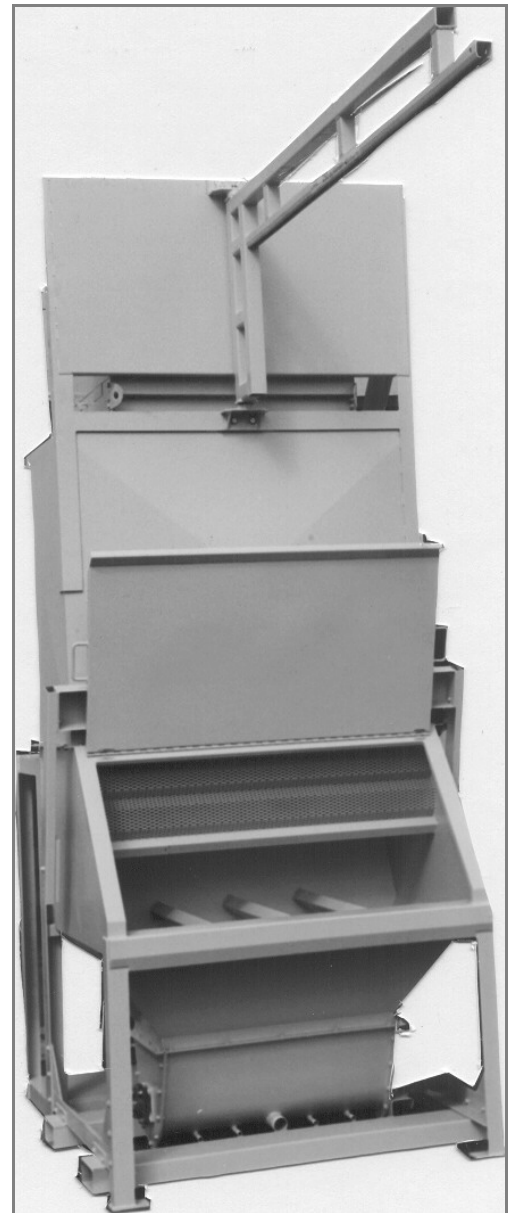

Unloading material received in bags is easy, clean and ergonomically safe when you use an Eagle Bag Break Station.

Eagle's Bag Unloading Station is available in a variety of modes depending on the bagged material unloaded. Whether your process calls for a fine powder, granular, flake or pelletized material, Eagle's Unloading Station is configured to ensure a clean, dust controlled environment.

Simple, efficient, modular design permits the selection of equipment that best suits your material. An open hopper with a bag grate for non-dusting materials, add a hood and door for limited dust control, or add a dust collector for fine, dusty powders.

The modular design allows the transfer of bagged material into a screw conveyor system, a vacuum conveyor system, or a pressure system.

Heavy duty, all welded construction in mild steel or stainless steel for handling materials under sanitary or non-sanitary conditions.

Model 30-820

# PRODUCT OVERVIEW

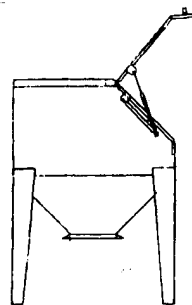

## BAG BREAK SPECIFICATIONS

MODEL NUMBER	CAPACITY HOPPER	SHELF HEIGHT	BASE DIMENSION	OVERALL HEIGHT	ACCESS OPENING	DISCHARGE OPENING
30-800	8 Cubic Ft.	36 "	44" x 48"	42"	20"H x 40"W	12" Square
30-801	8 Cubic Ft.	36"	44" x 48"	58"	20"H x 40"W	12" Square
30-802	8 Cubic Ft.	36"	44" x 48"	92"	20"H x 40"W	12" Square
30-820	20 Cubic Ft.	36"	50" x 58"	143"	30"H x 58"W	Custom

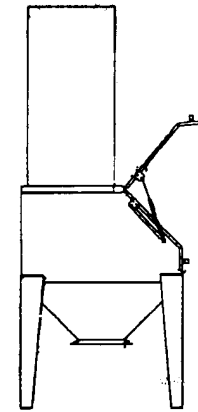

### BASIC MODELS:

Model 30-800

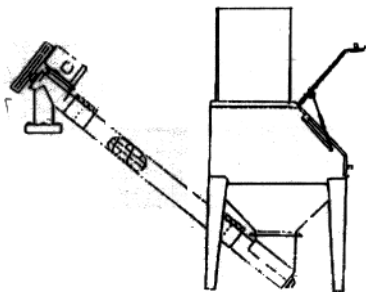

Model 30-801

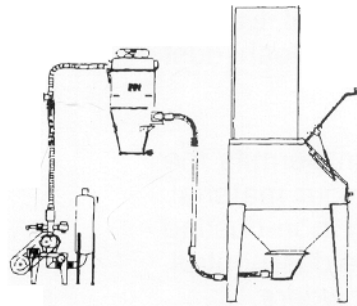

Model 30-802

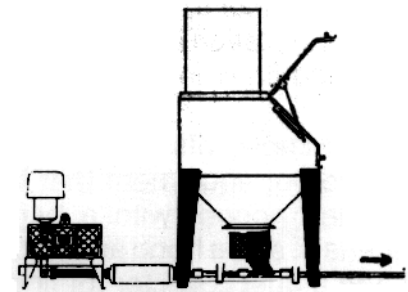

### DISCHARGE OPTIONS:

Screw Conveyor System

Vacuum Pump System

Pressure System

### Dust Control System

The Dust Collector is activated when the Bag Break Station is opened, and continues to run until the door is closed. When the dust collector shuts off, an automatic filter shaker is activated to clean internal filters automatically.

Bag Compactor, Model 30-888, available to efficiently handle discarded bags. The compactor can easily compact 320 bags into a 16" x 24" x 36" high bale, which weighs approximately 150 lbs. Pre-assembled, ready to mount directly to Eagle's Bag Breaker.
