FIELD WELDED TANK ERECTIONS

Eagle's certified welders specialize in the erection of both stainless steel and carbon steel tanks. Eagle maintains high quality rigging and welding equipment that is up to date in technology.

Timely scheduling, fabrication and erection are a key advantage of The Eagle Group.

Field Welded Tanks Installed Complete on Foundations

Field Welded Tanks Installation on Foundations by Eagle Install Crews

- Stainless steel fermentation tanks
- Carbon steel ethanol and fuel oil storage tanks
- Storage tanks for a wide range of industries including ethanol, bio-diesel, petrochemicals, waste water, agricultural, chemicals, and mining.
- Eagle field erects fixed and floating roof storage tanks

SHOP WELDED STORAGE TANKS

Eagle specializes in erection of all types of shop welded tanks, i.e. stainless steel, aluminum, carbon steel, and high alloy vessels.

Timely scheduling during your erection and communication with the general contractor are a key advantage of The Eagle Group. Our staff will ensure that we maintain a timely schedule at an economical price.

Tanks installed on weigh systems (load cells) are one of the many accessories that are routinely utilized.

Eagle's installation crews install tanks throughout the US, Canada, and Mexico.

Eagle also offers custom tank platforms.

SMOOTH WALL BOLTED TANKS

STANDARD DRY BULK BOLTED TANKS

The Eagle Group, Ltd. has the ability to handle systems erections that include dry smooth wall bolted tanks. A project manager oversees and instructs the complete project. This ensures a proper, timely in-
