

EAGLE

CONTAINER DUMPERS

HYDRAULIC DUMPERS FOR UNLOADING BOXES, BARRELS, AND VARIOUS OTHER CONTAINERS

The Eagle Inverter is a versatile material-handling machine built for rugged, heavy duty or light industrial use. It unloads an assortment of containers of all sizes and weights. A variety of materials such as plastic resins, metal parts, chemicals, food ingredients, and almost any dry material are easily transferred from bulk containers to where you want them.

Corner Dumper

The Eagle Container Inverter may be loaded by fork lift, conveyor, or pallet jacks. Units are available in almost any weight capacity in both static dump or high-lift and dump versions.

Customized container dumpers are available with options such as custom enclosed units for dusty materials, custom wide bodies, stands to change the dump heights, pneumatic operation, custom discharge chutes, side-load models for confined spaces, elevated dump heights up to 20 ft., stainless steel construction for food applications.

Side Dumper

High-Lift Dumper

Custom dumpers can be designed to meet practically any application.
